

Residential Audit & Weatherization Rebate Chart

MichCon Natural Gas or Detroit Edison Electric Heat*

MichCon must be your primary heating fuel supplier, or you must have all electric heat with Detroit Edison.

Measures	Certified Audit Maximum Amount	No Audit Maximum Amount	Beginning R Value	Additional R Value	Minimum Square Feet
Air Sealing 10% Reduction ¹	\$50	\$0	NA	NA	NA
Air Sealing 20% Reduction ²	\$75	\$0	NA	NA	NA
Air Sealing 40% Reduction ²	\$100	\$0	NA	NA	NA
Basement Wall Insulation ³	\$100	\$50	R-0	R-10	250
Band Joist Insulation ⁴	\$100	\$50	Not Foamed	Foam Only	100 Linear ft
Floor/Crawl Space Wall Insulation ⁵	\$100	\$50	R-0	R-11+	100
Above Grade Wall Insulation ⁵	\$250	\$125	<R-5	R-10+	250
Ceiling Insulation ⁶	\$250	\$125	<R-24	R-19+	750
Window Replacement ⁷	\$300	\$150	NA	ENERGY STAR®	4 Windows

Household rebate total are \$1,350 or \$500 depending on if an energy audit was performed.

*Electric Heat includes: Heat pumps and electric resistance heating systems.

Rebate Limit = Customer spend X 50% up to Maximum Amount (Excludes Windows).

Note: The online My Energy Analyzer and the In-Home \$25 Energy Survey do NOT qualify as Energy Audits for the higher rebate amounts.

1) Air Sealing – requires pre- AND post- blower door test, OR, completion of substantial sealing as detailed by pre- blower door testing and specification of work required to reach 10% reduction in external air infiltration for rebate. 2) Air Sealing – requires pre- AND post- blower door test. 3) Minimum of 250 square feet for basement wall insulation rebate. 4) Band Joist Insulation – to qualify for this Rebate the band joist must be air sealed and insulated with spray foam with a minimum of R-10 value or foam air seal plus fiberglass. 5) Minimum 100 square feet for floor insulation rebate. Minimum of 250 square feet for wall insulation rebate. 6) Ceiling Insulation requires a start point of an effective R-24 or 8” of insulation or less. A minimum of R-19 or 6” of insulation must be added for rebate eligibility. A minimum area of 750 square feet must be insulated to qualify. 7) Window Replacement – Max Rebate **with** audit is \$25 per window replaced in homes heated primarily by MichCon gas or Detroit Edison Electricity. Max rebate **without** audit is \$12.50 per window replaced in homes heated primarily by MichCon gas or Detroit Edison Electricity. Minimum of 4 windows replaced to qualify for rebate. Windows must be recognized/rated by NFRC (National Federation Rating Council) and/or ENERGY STAR. Be certain the windows you are considering are rated by one of these organizations.
